Environmental Pollution **50** (1988) 327–328

CONTENTS OF VOLUME 50

Numbers 1 & 2

Special Issue: Toxic Substances in the Environment

Introduction 1

PCB Problems in the Future: Foresight from Current Knowledge . . . 5
SHINSUKE TANABE (Japan)

Acid Rain: Chemistry and Transport 29
J. G. IRWIN and M. L. WILLIAMS (Great Britain)

Toxic Substances in Rivers and Streams 61
JOHN M. HELLAWELL (Great Britain)

Tree Decline in North America 87
B. I. CHEVONE (USA) and S. N. LINZON (Canada)

Atmospheric Ozone: Formation and Effects on Vegetation 101
SAGAR V. KRUPA and WILLIAM J. MANNING (USA)

A Silent Epidemic of Environmental Metal Poisoning 139
JEROME O. NRIAGU (Canada)

Nitrate and Water Supplies in the United Kingdom 163
B. T. CROLL and C. R. HAYES (Great Britain)

Number 3

Reduction in Organic Effluent Static Acute Toxicity to Fathead Minnows by Various Aeration Techniques 189
SCOTT E. BELANGER, JERRY L. FARRIS and DONALD S. CHERRY (USA)

Effects of Sodium Pentachlorophenate on the Ecology of a Freshwater Model Ecosystem 211
DORIS FEIND, FRANZ-JOACHIM ZIERIS and WILFRIED HUBER (Federal Republic of Germany)

The Use of Model Compounds to Elucidate Metal Forms in Sewage Sludge . 225
T. RUDD, J. A. CAMPBELL and J. N. LESTER (Great Britain)

Environ. Pollut. (**50**) (1988)—© 1988 Elsevier Applied Science Publishers Ltd. Printed in Great Britain

Lead Removal from Wastewater by Cementation Utilising a Fixed Bed of Iron Spheres 243
THOMAS AGELIDIS, KOSTAS FYTIANOS, GEORGE VASILIKIOTIS and DEMETRIOS JANNAKOUDAKIS (Greece)

Book Reviews 253

Announcement 257

Number 4

Effects of Ozone and Soil Water Deficit on Roots and Shoots of Field-grown Soybeans 259
H. E. HEGGESTAD, E. L. ANDERSON, T. J. GISH and E. H. LEE (USA)

Isolation and Identification of β-Nitrostyrene from Smoked Chicken . . . 279
TAKASHI NEGISHI, MASUO NAKANO, KAZUMITSU YANAI, CHUN HO KIM and MICHIHIRO FUKUSHIMA (Japan)

Modelling the Effect of Acidity on Mercury Uptake by Walleye in Acidic and Circumneutral Lakes 285
A. L. JENSEN (USA)

Heavy Metals Removal from Anaerobically Digested Sludge by Chemical and Microbiological Methods 295
R. D. TYAGI, D. COUILLARD and F. TRAN (Canada)

Uptake of Radionuclides by Plants after the Chernobyl Accident . . . 317
THOMAS SAWIDIS (Greece)

Announcement 325
